

Amphenol Connex

This 75 Ohm BNC bulkhead jack is ideal for use in high-performance video applications. Its end-launch termination saves space in high-density applications where panel real-estate is critical. The industry standard design features a gold plated body and PTFE insulator. Nickel plating is also available.

112740-13 is equivalent to Trompeter UCBBJE20-1
112740-16 is equivalent to Trompeter UCBBJE20-3

Part comes with 14mm Hex Nut, Other variations are available.

High Performance BNC for Video

Amphenol Connex P/N 112740-xx

Features & Benefits

- 75 Ohm Impedance
- Industry standard design
- Precision machined from brass
- Space saving end-launch termination
- Durable PTFE insulator to support high temperatures

Applications

- Video routers and switching equipment
- Video control panels
- Video display and monitoring applications
- Video add-on cards

Part Number	112740-13	112740-16
PCB Thickness	.062"	.084"
Body Material	Brass, Au Plated	
Insulator Material	PTFE	
Center Contact	Phosphor Bronze, Au Plated	
VSWR	<1.1 @ 3 GHz	
Impedance	75 Ohms
